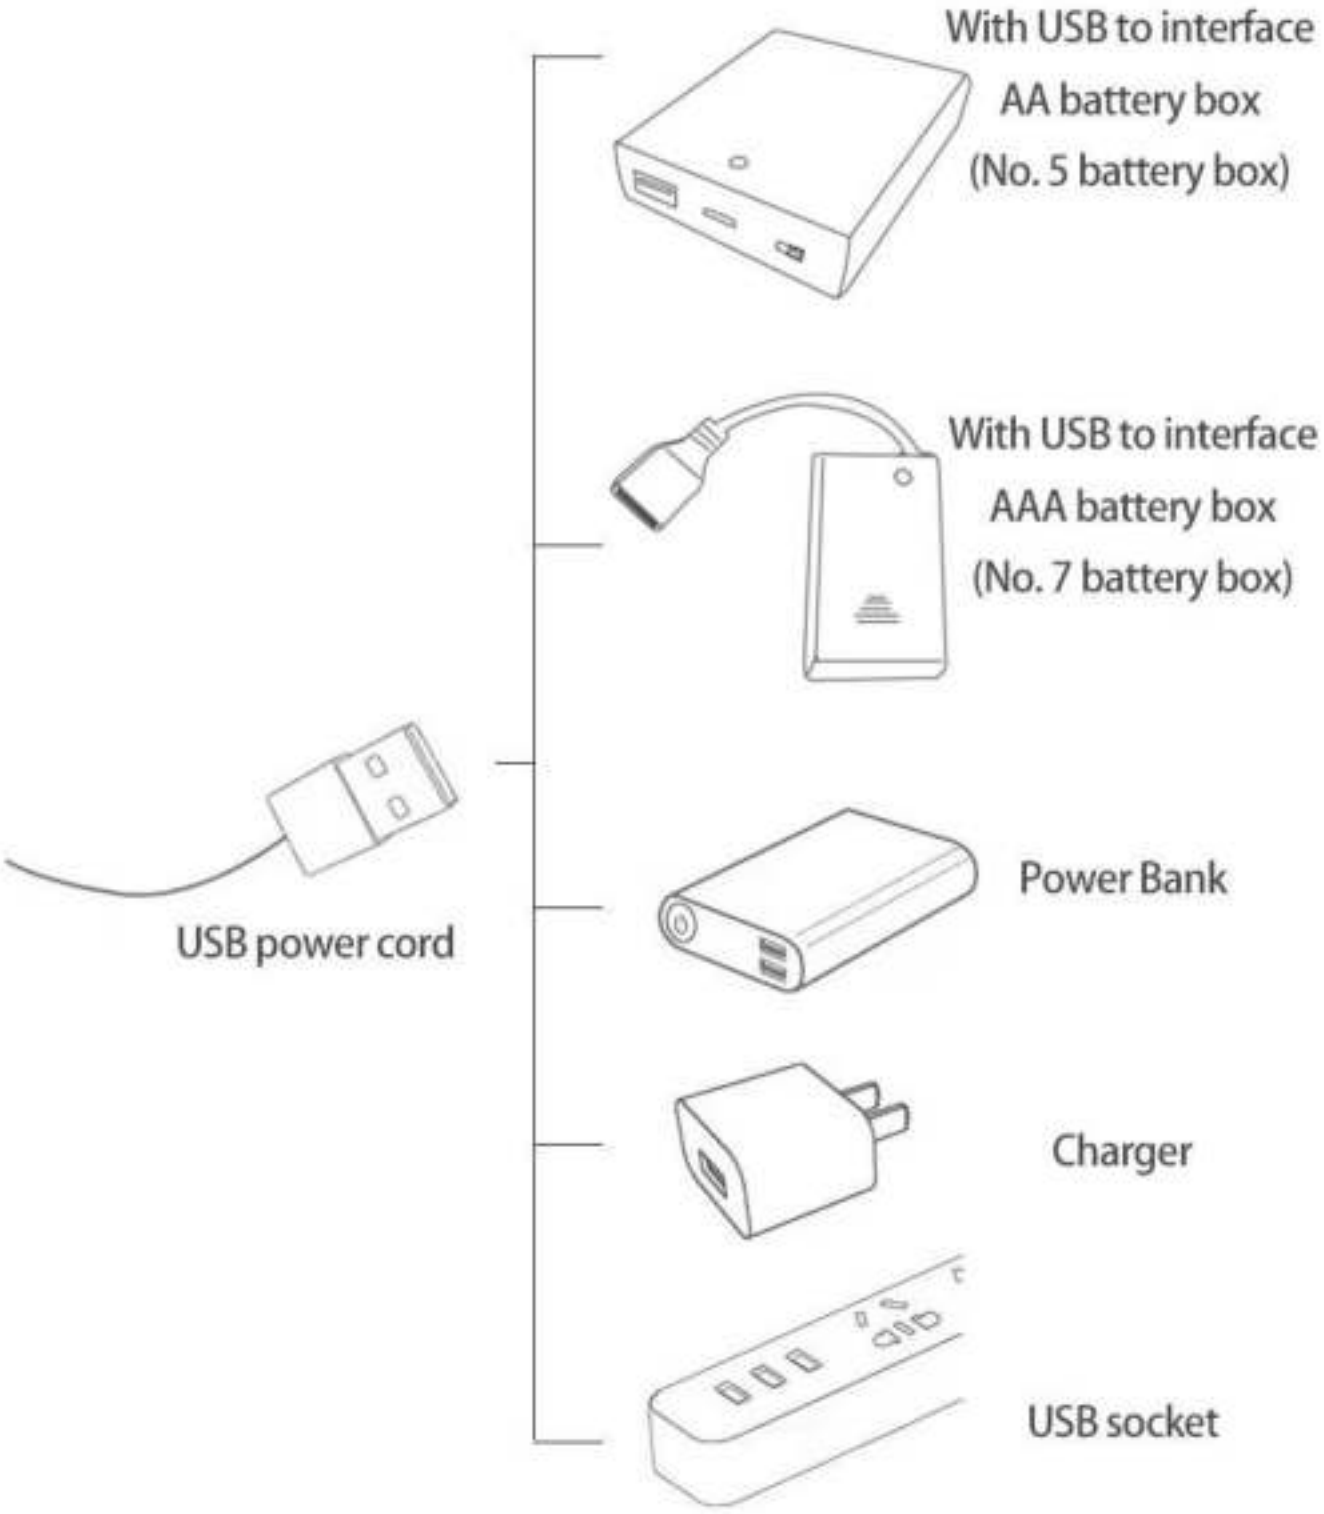
76191 Infinity Gauntlet LED lighting Kit (RGB Remote Control Version) GC15

Instructions for installing this kit:

Power supply mode: USB power cord (please bring your own power supply).
It can be energized through a USB battery box (please pay attention to the positive and negative poles of the battery), power bank, mobile phone charger or USB socket. The normal voltage is 3-5V.

USB connectors to connect devices



There are 3 bags of this product, and the No. 7 battery box is a gift. (Without battery)

Lighting test:

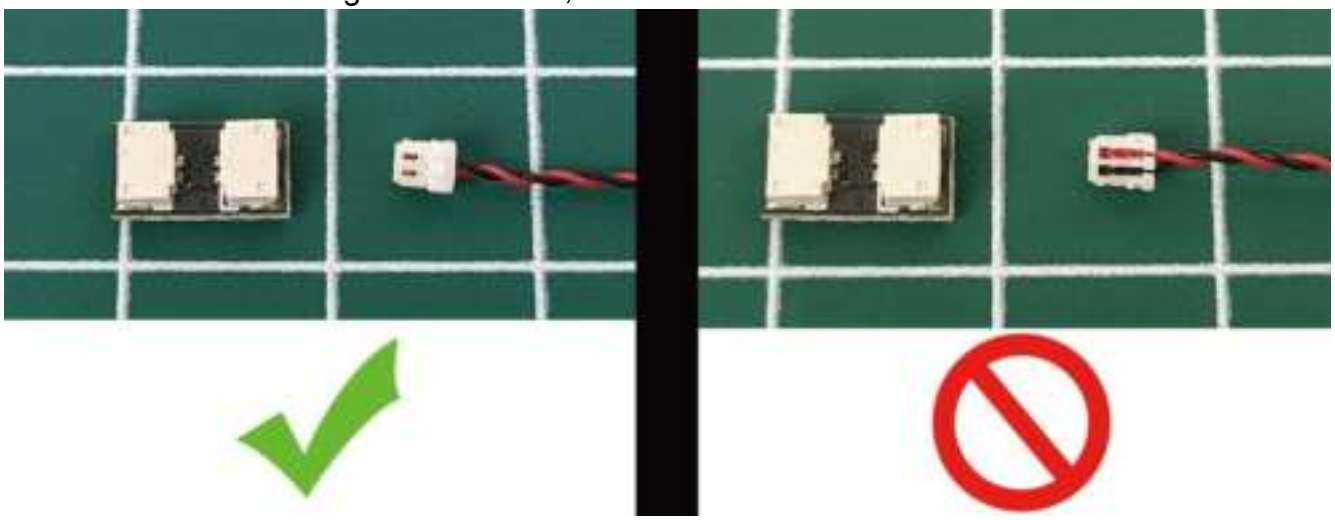
Take out the accessories inside (accessories include: No. 7 battery box, 30cm USB power cord, 1 remote control switch module, 1 remote control, 1 2*2 white building block, 1 colorful background light, 1 10cm cable). The following power supply methods use mobile power, equipped with a battery box (battery self-prepared), and the USB power cord can be used by itself.

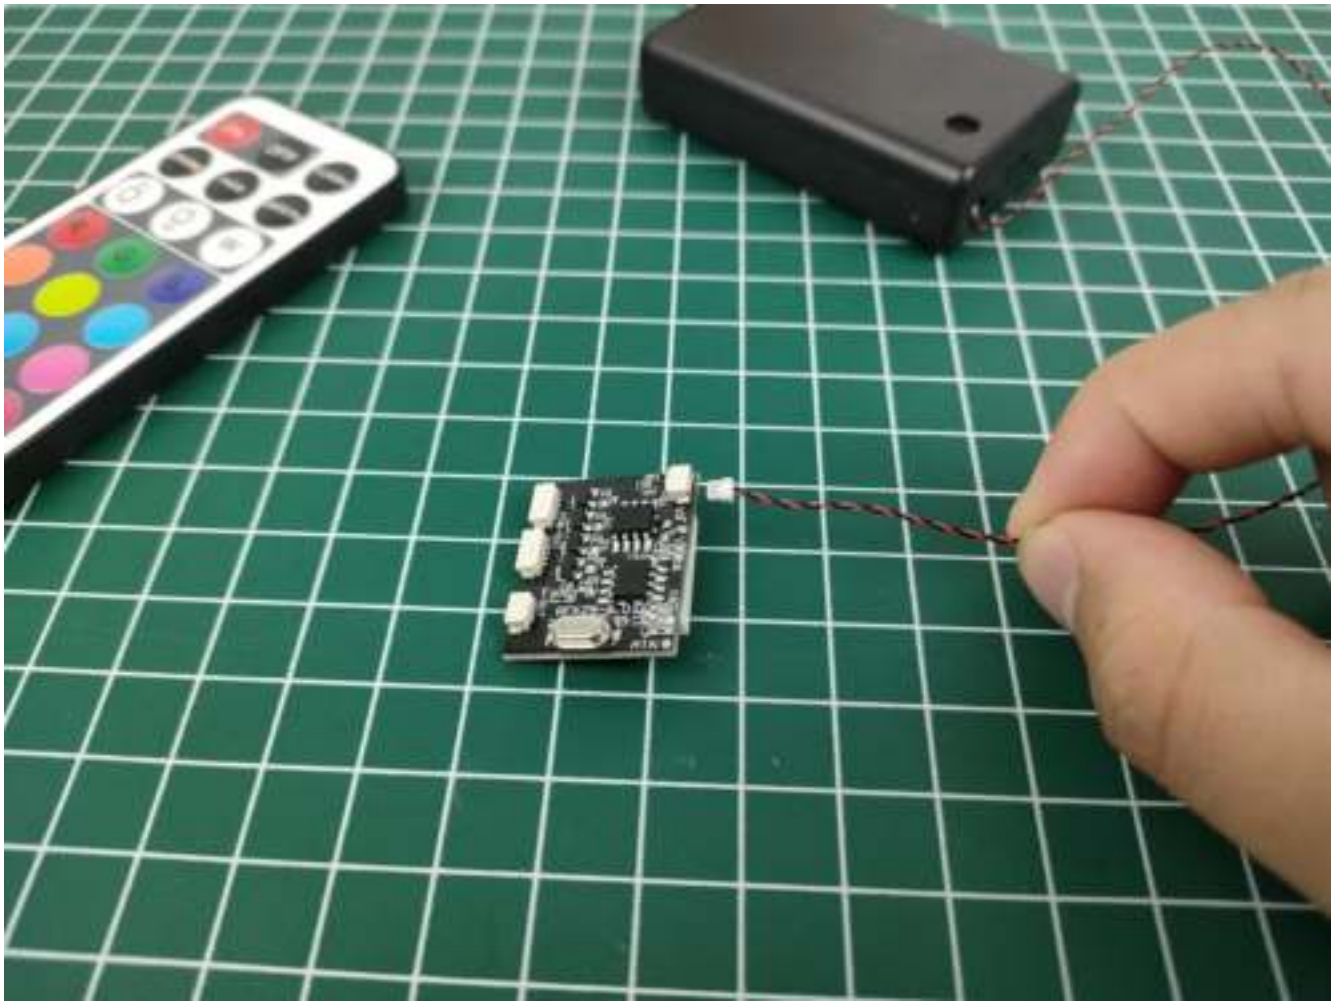
LED LIGHTING KIT

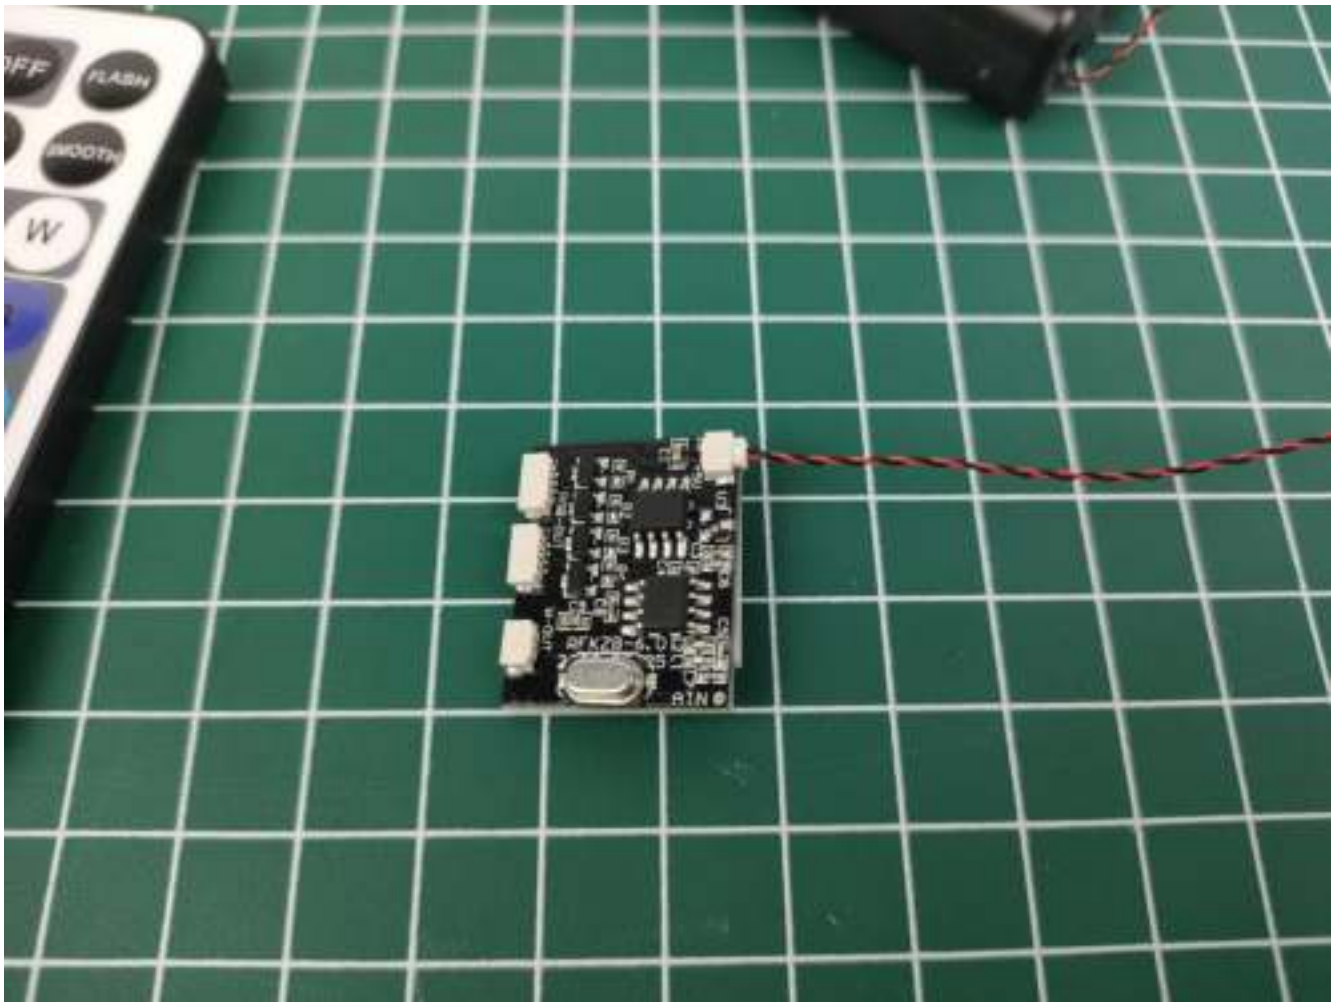
LED LIGHTING KIT

The remote switch module is connected to the AAA battery box

The two are connected through the interface, the connection method is as follows.



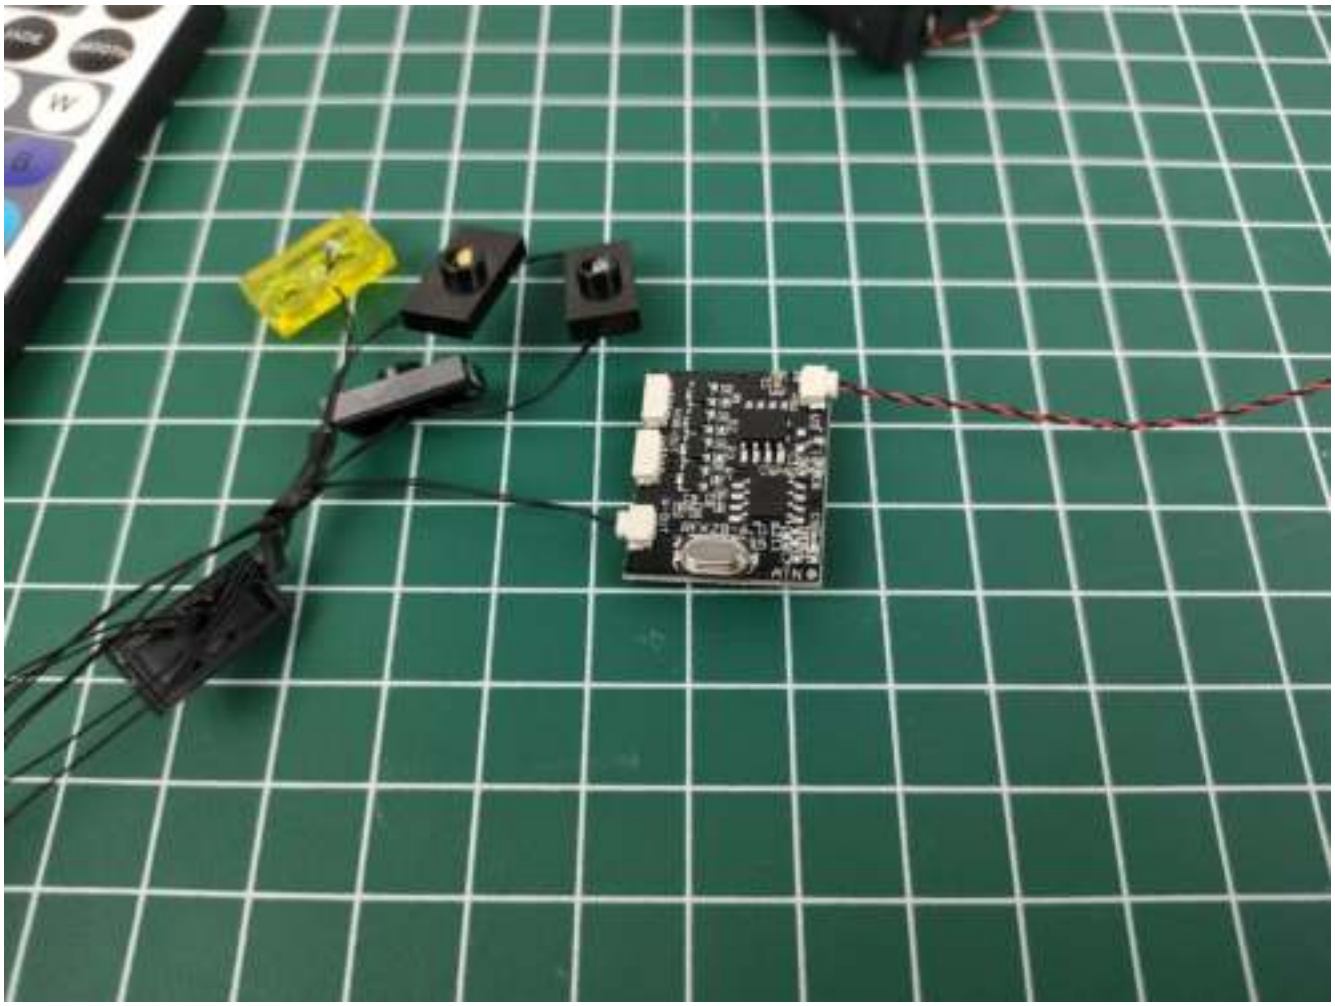




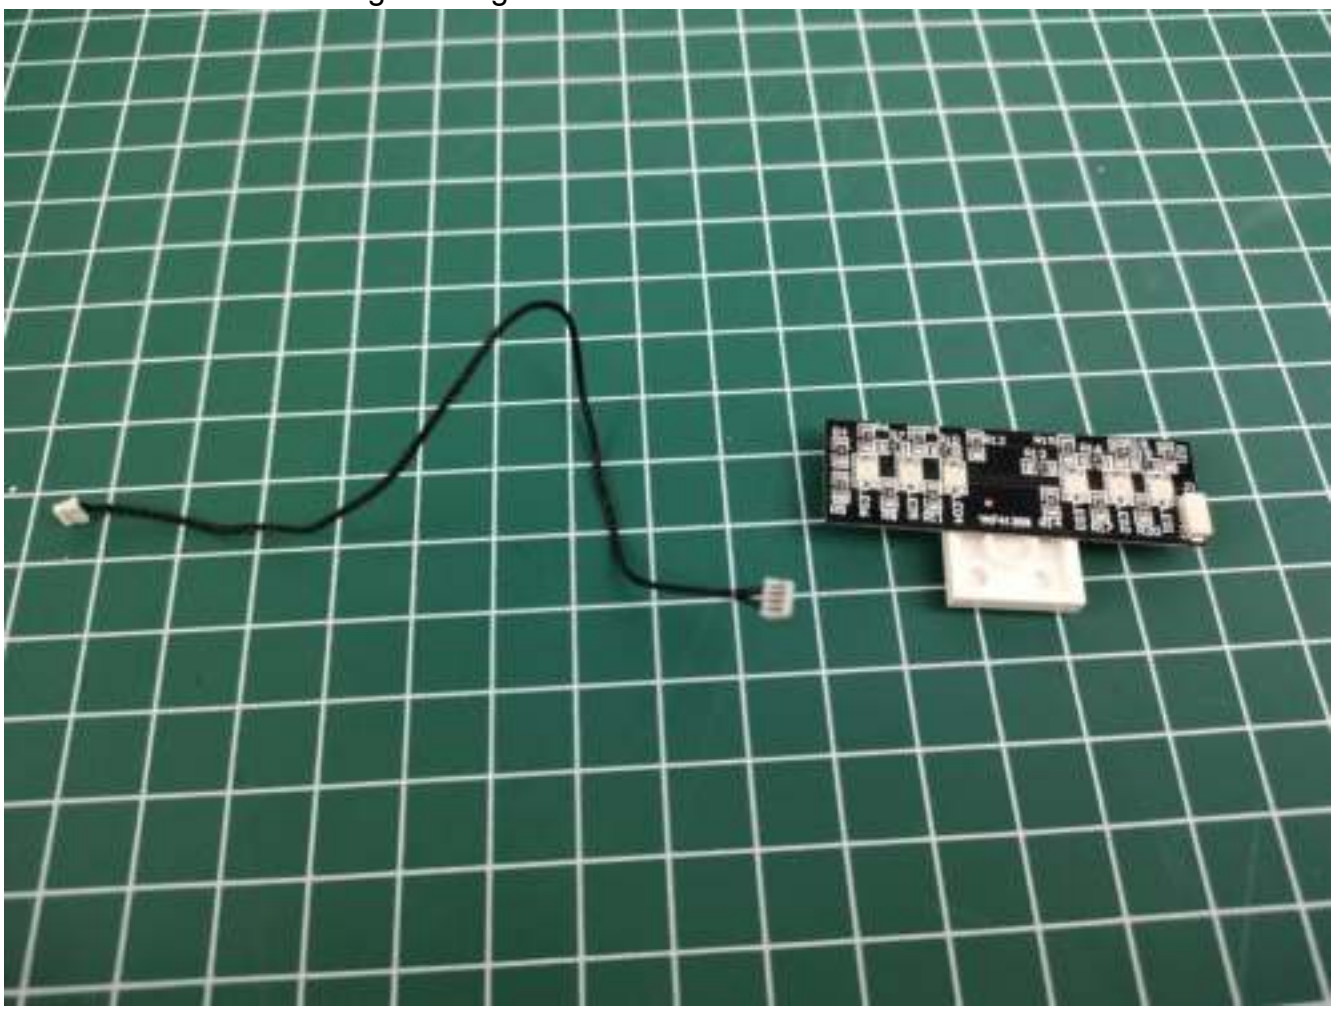
FLASH
W

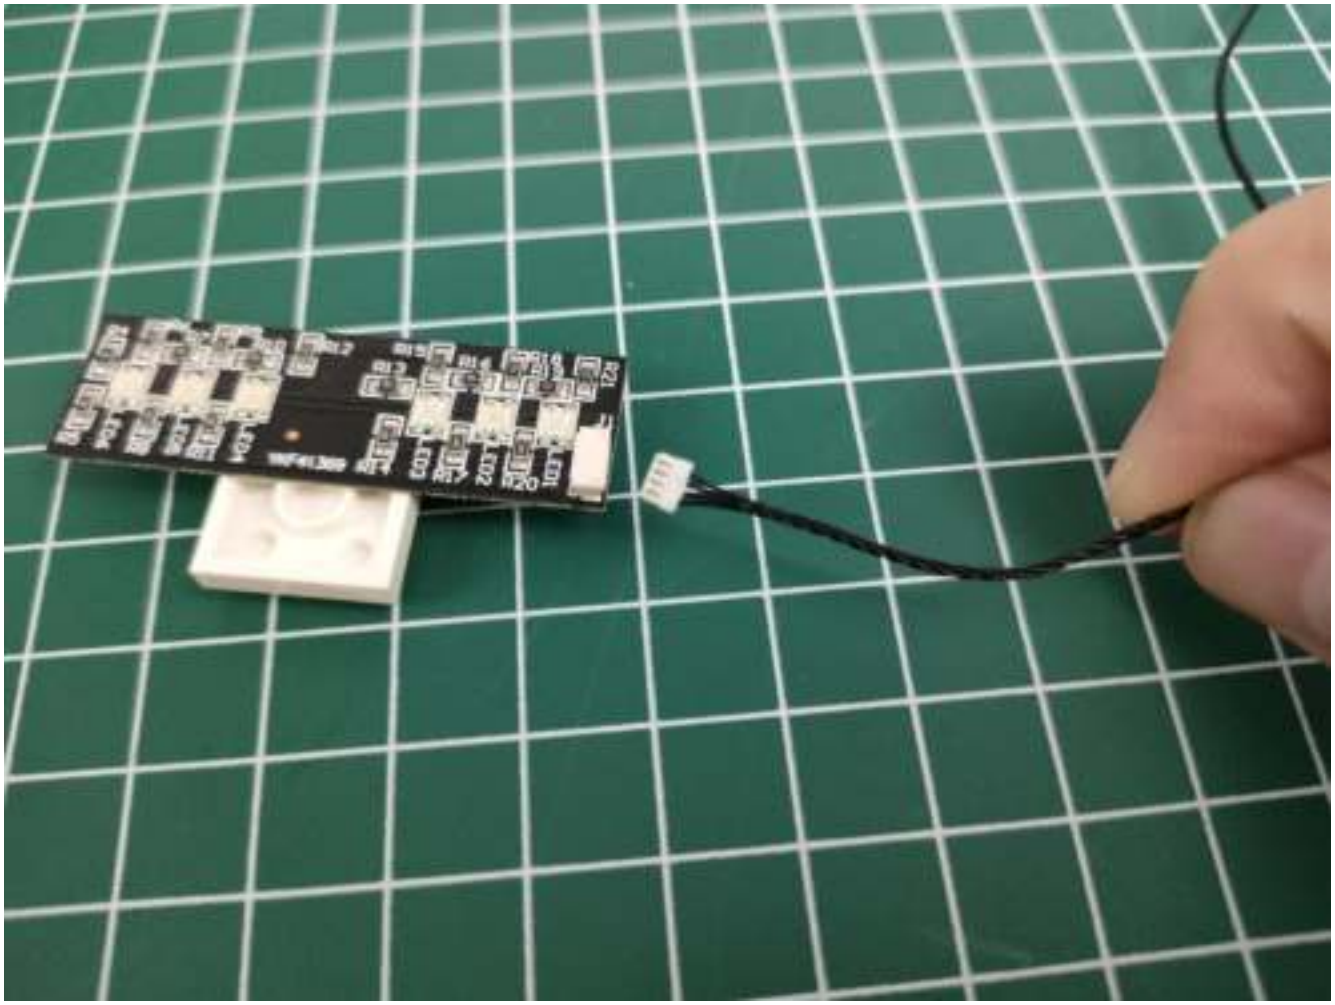
Take out the lighting from the bag labeled "1"

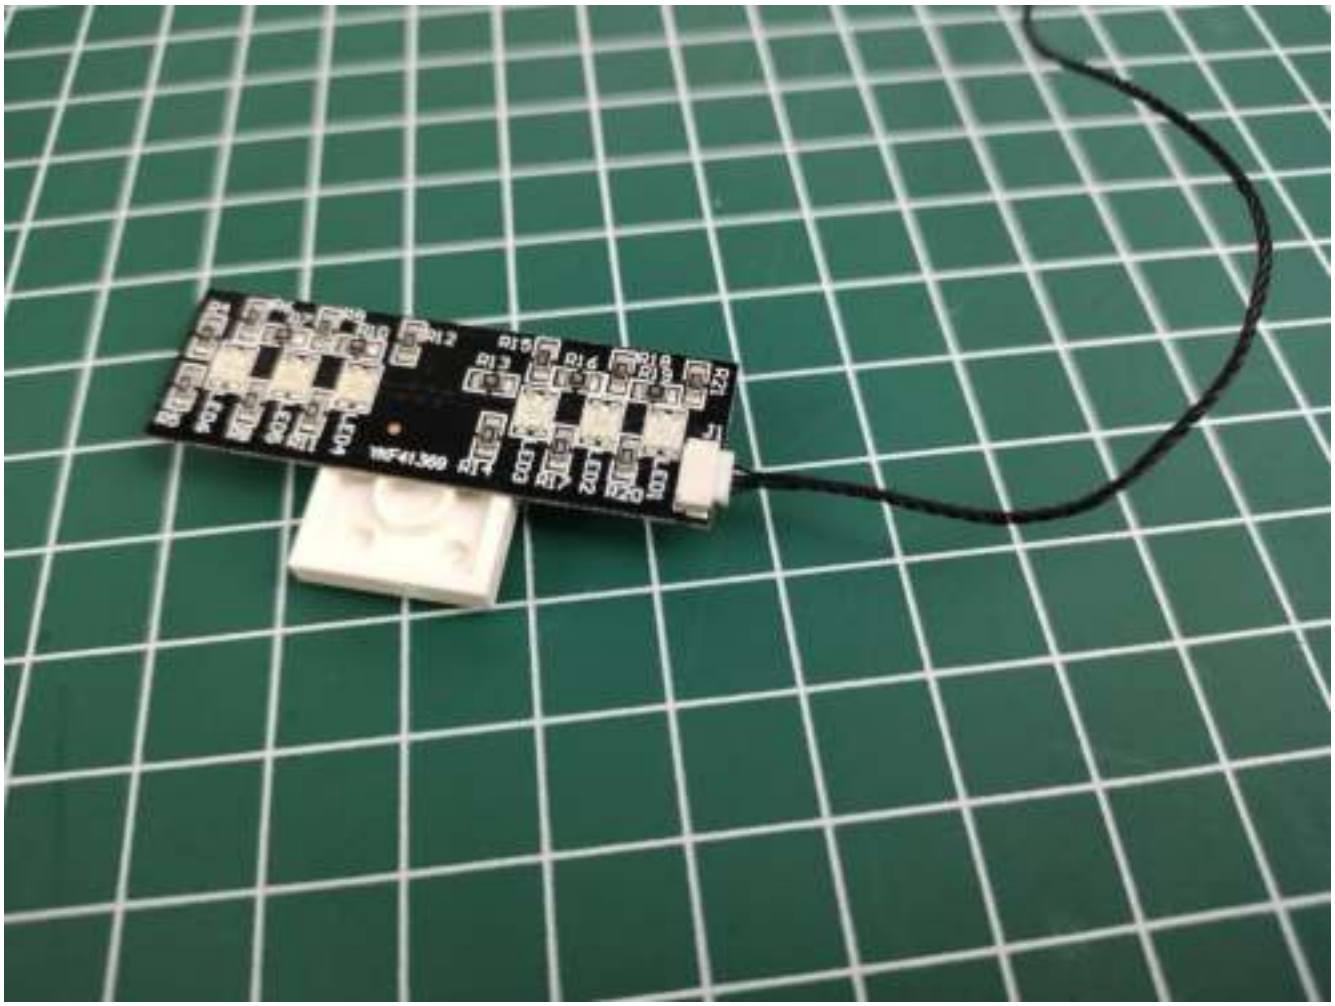
The lighting power cord is connected to the remote control switch module, pay attention to the direction of the wiring terminal



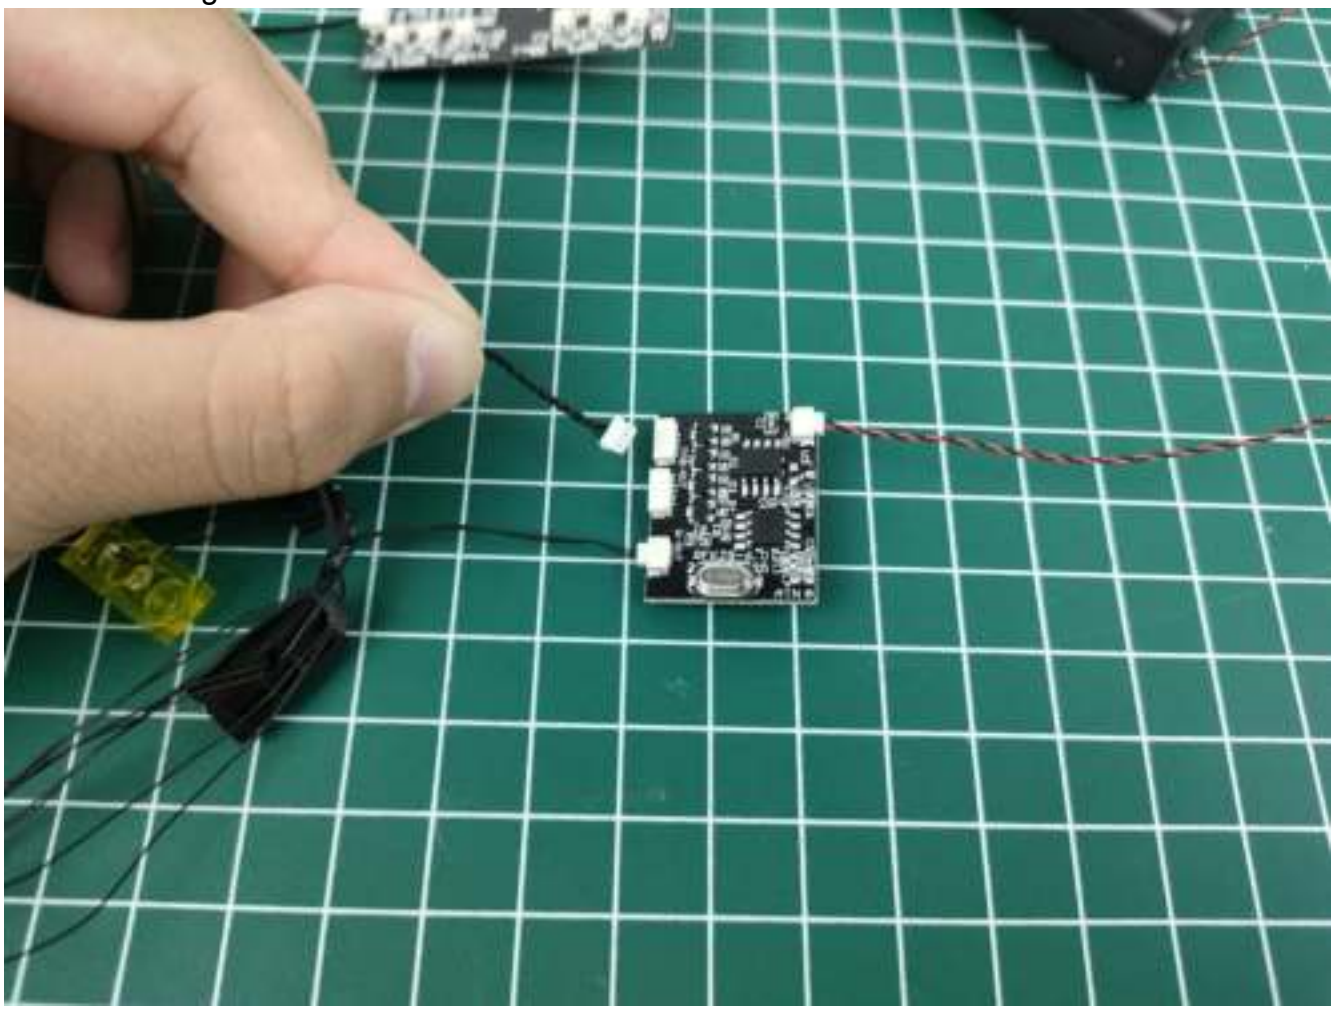
Take out the 10cm connecting wire and the colored background light, and connect the connecting wire with the colored background light.

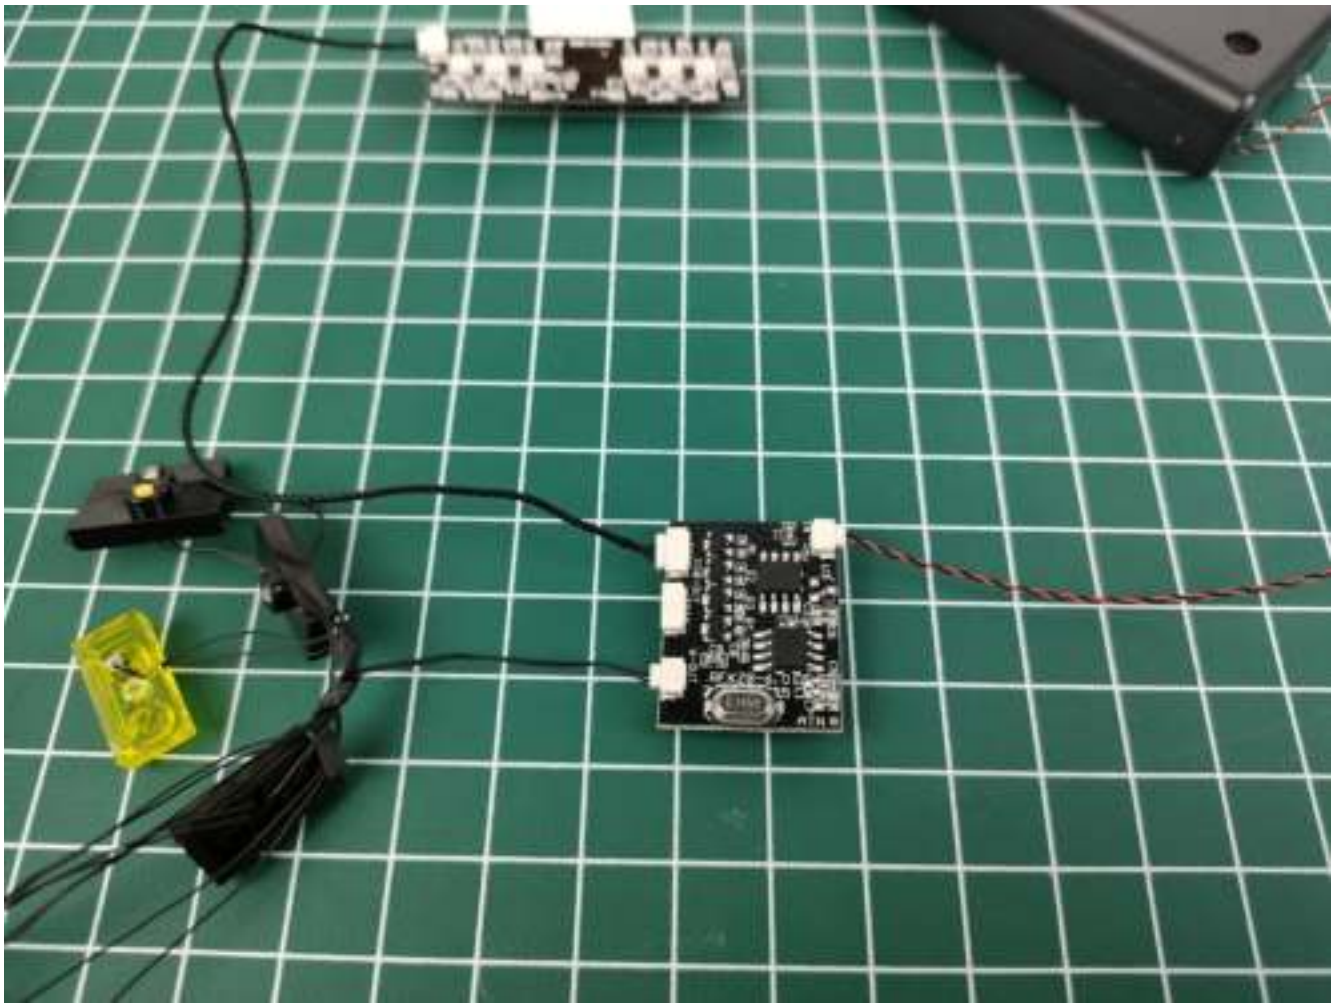






The connecting wire is connected to the remote control switch module.





Open the cover of the AAA battery box, install the battery (please bring your own battery), and restore the cover.

Turn on the AAA battery box switch and use the remote control to test whether the lighting is abnormal.
If anything is abnormal, please contact us in time!
